

As Lower KS2 **Designers** we will learn to:

- research, including using ICT to get ideas for our designs.
- explain how or why our designs fit with the needs of people or places.
- record our ideas using labelled diagrams.
- record our ideas using plans.
- record our ideas using writing.
- record our ideas using ICT.
- match the materials we need to the task that we are doing.
- measure, mark, cut and assemble (fix together) components (parts) accurately and safely.
- evaluate our product against the original design specification, and suggest how we might improve or change it.
