

Home learning – Yr 6

Naturally, we are keen to minimise disruption to children's education, and a variety of home-learning resources will be made available for your child during periods of school closure. While we would encourage you to try to support your child to engage with these, please do not do so at the expense of your family life or the wellbeing of your household. Learning can be done in many ways and, most importantly, children will want their parents to be parents, not teachers, in this time of huge anxiety and uncertainty.

That said . . .

Work for EVERY year group can be accessed on the NEW 'School Closure – Home Learning' page of the school website at www.braybrookprimary.co.uk from MONDAY 23RD MARCH 2020.

On this page, there is provision for the first five days of home learning.

This will be updated every week on a MONDAY MORNING, for the foreseeable future.

In addition to this, there are a range of additional home learning opportunities below, with details of how and where these might be accessed.

Subject	Tasks available	Where to find activities
Maths		
Times Tables Rockstars	Times table questions for the children to access independently.	Online software Every child has an individual log in. https://trockstars.com/login

We are conscious that this is an exceptionally challenging time for our children, our families and our whole school community and that, whilst we might seek to protect our children from the reality of the current situation, they may well have questions and anxieties relating to this.

As such, in addition to the Year group pages, we have attached to the 'School Closure – Home Learning' page, a couple of simple resources which may aid you in reassuring and discussing this with your child.
