

Braybrook Year Two Fortnightly Newsletter

Maths

Opal Class are learning all about money! They are learning to identify the value of coins and notes as well as making different amounts of money. They will move on to solving real life problems for example totaling amounts and finding change.

English

In English, we are loving our class book 'Ocean Meets Sky'. So far, we have written some extremely detailed setting descriptions about Library Island. We are currently writing a set of direction on how to find Ocean Meets Sky.

Science

In our science sessions, the children have been exploring everyday materials and their properties. The children are able to name a wide range of materials and are starting to investigate why everyday objects are made from that material. They will move on to explore this further through investigations.

Foundation Subjects

In history, we have been learning about 'how schools have changed'. We have studied photographs of classrooms from the past and identified how they are different to our classroom. We are looking forward to learning about how school has changed since our grown ups were at school.

In DT, we have been learning about food nutrition and how to design a balanced meal. The children are able to identify simple changes that can be made to make meals healthier.

In RE, we have looked at 3 religious stories and identified how these show that God is special.

In music, we have been musical storytellers. The children re-told the story of Jack and the Beanstalk and performed to their peers.

Photographs taken during our recent Science afternoon. The children had an egg-citing afternoon with Year One!

Reminders

Our PE day is a Tuesday. Please remember children must come into school wearing their PE kit and bring with them their uniform. This is not the same for all classes.

Reading

Please ensure reading diaries and books are brought into school **everyday**. If your child does not have their diary in school on a Friday, their reading score will be 0. It is expected that children read at home 5 times a week.

Maths

Children should be accessing both Numbots and TT Rockstars from home. Children are tested each Thursday on their times table.
