Maths

Opal Class have just started their formal learning around multiplication. Those children who have been playing TT Rockstars have a great advantage as they already know lots of their times tables!

English

In English, we will be writing a diary entry. This is our last piece of writing linked to our text 'Ocean Meets Sky'. This children have been working hard on including conjunctions in their sentences.

Science

In our science sessions, the children have been learning about materials and their properties. The children have been carrying out investigations testing properties such as stretchiness and strength.

Foundation Subjects

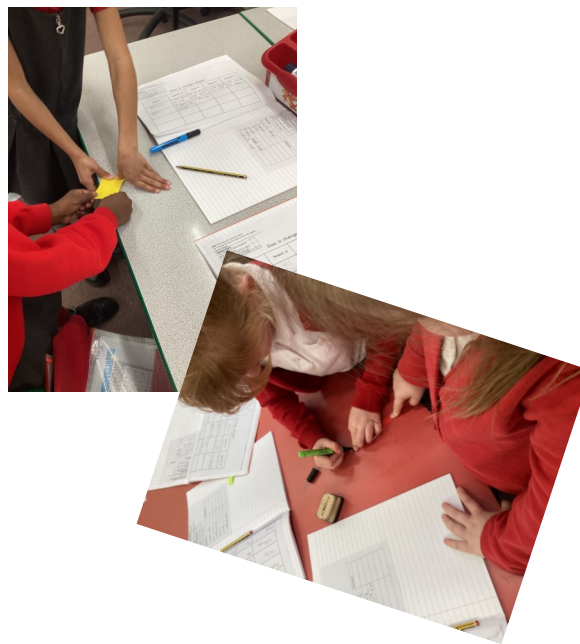

In religious education, the children have been listening to stories from different beliefs. They have re-told the stories and identified how it shows that they are important to God.

In history, the children have continued to learn about Victorian schools. The children studies photographs to identify similarities and differences between school then and now.

In music, the children have started a new unit linked to 'call and response'. They are learning to identify pulse and rhythm in a piece.

In DT, the children designed a nutritious and healthy wrap that they then tasted!

Photos of the children investigating the properties of materials.

Reminders

Every Tuesday, please remember children must come into school wearing their PE kit and bring with them their uniform. This is not the same for all classes. Please ensure all earrings are removed as a large number of children are unable to do this themselves.

Please ensure reading diaries and books are brought into school everyday. Rewards are issued each Friday for reading and Numbots.

Homework: a reminder that children should be reading a minimum of 5 times a week at home. The expectation is that children also practice their number fluency on Numbots /TT Rockstars. Some children have not logged on for sometime. These children may be asked to practice during golden time.
